

STUMP GRINDER SAFETY

STAY ALERT, WATCH WHAT YOU ARE DOING AND USE COMMON SENSE WHEN OPERATING. IF YOU DO NOT UNDERSTAND THE SAFE OPERATION OF THE EQUIPMENT, STOP WHAT YOU ARE DOING!!! CALL US IMMEDIATELY!!!

- 1) Wear proper safety clothing: safety glasses, sturdy footwear, gloves, face shield, etc.
- 2) Never start grinder before checking controls, brake, and allow nobody within 25 feet of working area. Position machine to protect windows, vehicles, other people from flying debris.
- 3) Never remove guards or shields, and never attempt to override any safety devices.
- 4) Never use in bad or questionable weather.
- 5) Be aware of any underground utilities or other dangerous situations.
- 6) When setting up grinder, position cutter wheel at front edge of stump; adjust handle bar to comfortable position; lock wheel
- 7) Always run engine at full throttle while grinding stump.
- 8) Always lower cutter wheel SLOWLY onto the stump.
- 9) Move handle using left-to-right motion allowing cutter head to grind the stump with each pass.
- 10) Do not allow stump grinder wheels to drop into hole - fill with chips or change position.
- 11) Always cut stump flush with ground first, then go back and cut to desired depth.

**Shut the machine off if any unusual noise or vibration occurs!!!
If you are in doubt as to the safe operation of this equipment,
CALL US IMMEDIATELY!!!**
