PowerProtect+™ 18kW & 22kW Standby Generators

Reliable Backup Power Backed by the Best Warranty.

Enjoy ultimate peace of mind from power outages with PowerProtect+™ 18kW[1] & 22kW[1] Standby Generators. Only from Briggs & Stratton, PowerProtect+ generators deliver **best-in-class motor starting power**[2] to handle large appliances, like your AC, and are backed by **the industry's longest and most comprehensive standard warranty**[3]—covering parts, labor and travel for a full 7-years.

With over a century of power expertise, Briggs & Stratton® Standby Generators are **engineered and tested to meet the highest quality standards** for reliable backup power when you need it most. Protect your home from outage-related damages while providing your family with **the comfort and security of certainty.**

Fear no storm with the power of Briggs & Stratton.

BRIGGS&STRATTON
ENERGY SOLUTIONS

POWERPROTECT+
Standby Generators

Best-in-Class Starting Power[2]
All PowerProtect+ generators are engineered to start a 5-ton air conditioner. You get the power you need without having to size up to a larger, more expensive generator.

Exclusive Front-Facing Exhaust
A safer design that directs exhaust away from your home to enable more installation flexibility, minimize landscape disruption, and protect your home's exterior.

Vanguard® Commercial-Grade Engine
Designed for reliable, continuous performance—from the engine experts at Briggs & Stratton.

Best Warranty in the Industry[3]
Longest and most comprehensive standard warranty with no out of pocket costs. Parts, labor, and travel are all included for a full 7 years. **That's a value of up to $870!**

Integrated EnergyTrak™ Remote Monitoring
Convenient subscription-based mobile app to monitor generator status anytime from anywhere. Also lets your dealer remotely troubleshoot and diagnose any issues.

Enhanced Weather Protection
Redesigned enclosure featuring robust, angled louvers and improved protection from moisture, dust, and vibration – for maximum durability and longevity in harsh environments.

Eco-Cise™ Weekly Test Mode
Our short 16-second weekly test mode ensures your generator is in top operating condition while reducing noise and fuel consumption.

Better Performance and Value than the Competition
